

Bryan Beck
Engineering Manager
City of Fort Worth Engineering Department
1000 Throckmorton
Fort Worth, Texas 76102

Bryan Beck is an Engineering Manager with the Department of Engineering where he has been employed for twelve years. He accepted a position with the City of Fort Worth after graduating from Texas A&M University with a Bachelor's and Master's degree in Civil Engineering.

For the past five years, Bryan has been the City's Project Director for the nearly billion dollar Southwest Parkway Project. He also manages the DOE's Design Services Group, overseeing the design of capital projects and the Water Department's customer service program. In his role as Project Director for the Southwest Parkway, Bryan has the opportunity to work closely with the leadership of the Texas Department of Transportation, the North Texas Tollway Authority, and the City Manager's Office. In this role, Bryan has been able to build consensus in an often contentious atmosphere.

Bryan will be eligible to retire in fifteen years. He is a lifelong resident of the Fort Worth area and is married to Katherine Beck, an engineer who has worked in the Transportation & Public Works Department for five years.

Bryan currently serves as the Vice-Chair of the Fort Worth Employees' Retirement Fund Board and as a member of its' Investment Committee.
